

TRUSTEE

Trust and Privacy Preserving Computing Platform for Cross-Border Federation of Data

Utilizing Self-Sovereign technologies and with State-of-the-Art homomorphic encryption, TRUSTEE offers a socially and environmental-aware framework for cross discipline federation of Data.

OUR PILOTS:

SPACE:

Supporting ISS for research and space missions, based on a series of detailed scenarios developed in the early phase of the project

DATA:

Implementing a set of IDS interfaces with the GAIA-X federation layer to allow secure data inference across the entire platform

HEALTH:

Supporting clinical research and healthcare process improvement

ENERGY:

Offering Virtual Power Plant services while respecting privacy and data security

EDUCATION:

Improving data sharing according to GDPR rules and enabling data interoperability with cross-border

AUTOMOTIVE:

Enhancing the safety indexes for autonomous driving in the presence of sensor and data sources

Project Coordinator:
ICS FORTH
spanakis@ics.forth.gr

Dissemination & Communication Manager:
Markakis Albertos
Adrestia R&D
amarkakis@adrestia.eu

Technical Manager:
Markakis Evangelos
HMU
emarkakis@hmu.gr

Start date - July 2022

Total Cost: € 8.706.263

Duration: 42 Months
